ADJUDICATOR'S REMARKS

Not rhythmically secure to open. Some good sounds heard however you could do much more with the dynamics. (4) Melodic lines don't knit well together. (10) Well shaped - nice solo cornet sound. (13) Dynamics not observed (14) 1 note slight slip (pitch). (14) Lacks flow (25) Not very tight and lacks a rhythmic pulse. 1 note dynamic contrast. (33) I don't hear all parts and it lacks clarity of dynamics between the different parts. 4 of (36) Needs to be more 'soft'. The balance is not always spot on (40) Good contrast. I don't hear solo cont bar 6 of (40). Relevant dynamics lacking the clarity is lost at times and this is due to overblowing and untidy playing.

A capable band and I heard some good playing however the lack of detail caused concern today. The technical challenges of the piece caused a problem for you.
